

NOTICE

## Product update: PV Rooftile IS001

We inform that the new optimized version of PV Rooftile (item IS001 version 2.1) will officially **enter production on January 2025**. The current version (2.0) will be substituted and gradually put out of production.

Comparison	2.0 version	2.1 version
Nominal peak power	7,57 Wp	11,10 Wp
Unit price	43,40 Euro taxes excluded	63,90 Euro taxes excluded
Peak kilowatt price (kWp)	5.815,60 Euro taxes excluded	5.814,90 Euro taxes excluded
Installation area of 1 kWp	9 sqm	6 sqm
Modules quantity for 1kWp	134 Rooftiles	91 Rooftiles

The rise of unit price on 2.1 version is due to an increase of manufacturing costs. However, we managed to keep kWp price almost unchanged.

### Orders: new and in-progress

Starting from today, all quotation for new supplies are done with the 2.1 version. It is no longer possible to order supplies of 2.0 version.

Samples purchased during 2024 will be done with 2.0 version. Except for power variation, the two versions are essentially the same product. So, 2.0 version samples can equally represent all product features for a general evaluation.

2.0 version will be gradually substituted by 2.1, this means 2.0 version production is guaranteed, until order conclusion, for the supplies that are already confirmed.

### Updated info and documentations

Updated information and documentation of 2.1 version are available on our website:
